Seat Number _____

BCA SEMESTER-III
CC303-OPERATING SYSTEM
SUBJECT CODE: 20630

Time: 02:00 Hrs. 23 FEB 2022 **Total Marks: 56**

Q-1(A)	What is an OS? Explain any two OS with its advantages and disadvantages.	14
	OR	
Q-1(A)(I)	What are the functions of an OS? Explain in detail	07
Q-1(A)(II)	Define term : Batch processing system, Jobs, Processes files, command interpreter.	07
Q-2(A)	What is FCFS & SJF ? Explain with example.	14
	OR	
Q-2(A)(I)	Define terms: Throughput, Turnaround Time, Waiting Time, Response Time	07
Q-2(A)(II)	Define terms: Process States, Process Control Block, Context switching.	07
Q-3(A)	Define: Deadlock. Explain deadlock prevention, avoidance and detection.	14
	OR	
Q-3(A)(I)	Explain deadlock detection and recovery.	07
Q-3(A)(II)	What is thread? Explain its benefit and types.	07
Q-4(A)	Write a detail note on segmentation and fregmentation	14
	OR	
Q-4(A)(I)	What is page replacement algorithm? Explain FIFO & LRU in brief.	07
Q-4(A)(II)	Write a detail note on virtual memory.	07
